

Dear client,

The *Just one drop* project launched last week with support provided to farmers still affected by the ongoing drought and communities in need caused by the Covid-19 pandemic. We will share the progress of the project with you soon.

As communicated previously, we've created effective channels through which producers and the general public can contribute in order to make an even bigger impact. Remember, you can decide whether your contribution must be used towards helping farmers still affected by the ongoing drought, or towards communities in need caused by the Covid-19 pandemic, or both. Funds for farmers as well as funds for community aid will be used to make food products available through the GWK Retail network. It will be distributed in the communities with the assistance of Agri Northern Cape for humanitarian relief for farmers as well as through charities and church organisations we have identified to provide help in our communities.

Producers can contribute by donating a portion of your delivery of any product at a GWK facility. The value of the delivery will be converted to a cash amount that will then be added to the fund. You can use one of these delivery numbers:

Just one drop (Agriculture) – 7254900
Just one drop (General public) – 7255000

You also have the option of making a financial contribution through the new aid fund account.

Account details:

Standard Bank
Account number: 242 245 099
Reference: Agriculture (for farmers in need) or General public (for communities in need)

For general enquiries send an email to druppel@gwk.co.za
or visit www.gwk.co.za.

Kind regards,
***Just one drop* team**
