

Dear client,

Over the past few months and specifically the last few days, runaway fires have caused devastation across the Northern Cape and parts of the Free State.

We stand in awe of the farmers and communities who have come together to fearlessly fight against the fires and still currently do. Within moments, people came together not only to extinguish the fires, but to provide help in the form of, among other things, food and medicine at the sites and to people who were fighting fires and to those most affected.

We have already heard of several initiatives across the affected areas that offer support and we thank everyone who intervened so swiftly to make a real difference.

GWK's *Just one drop* project is also helping farmers and communities in collaboration with and through coordination by Agri Northern Cape. This project also makes it possible for anyone to make a financial contribution to further assist in the areas where it is most needed.

Contributions can be made to the *Just one drop* account, where you can also indicate to which town your donation should be channelled.

***Just one drop* account details:**

Standard Bank

Account number: 242 245 099

Reference: FIRES and name of town

Keep an eye out for communication where we will share more about the help that will be provided to the different areas in collaboration with Agri NC.

For more information send an email to druppel@gwk.co.za.

Regards,

GWK *Just one drop* team
